
Visualization of the relationship between Actual Cognition;and Gradient projection Pred Cognition
r=0.25856, p<0.001
Observed Episodic memory
G1-proj Predicted Episodic memory
r=0.43012, p<0.001
Observed Cognitive flexibility
G1-proj Predicted Cognitive flexibility
r=0.081491, p=0.0481
Observed Working memory
G1-proj Predicted Working memory
r=0.1367, p=0.0038
Observed Inhibitory control
G1-proj Predicted Inhibitory control
r=0.11924, p=0.0064
Observed Episodic memory
G2-proj Predicted Episodic memory
r=0.44728, p<0.001
Observed Cognitive flexibility
G2-proj Predicted Cognitive flexibility
r=0.04916, p=0.1602
Observed Working memory
G2-proj Predicted Working memory
r=0.073744, p=0.0703
Observed Inhibitory control
G2-proj Predicted Inhibitory control
r=0.1392, p=0.0022
Observed Episodic memory
G3-proj Predicted Episodic memory
r=0.25183, p<0.001
Observed Cognitive flexibility
G3-proj Predicted Cognitive flexibility
r=0.19688, p=0.0001
Observed Working memory
G3-proj Predicted Working memory
r=0.21832, p<0.001
Observed Inhibitory control
G3-proj Predicted Inhibitory control
